Presentation Evaluation Sheet

I. Use the seven-point scale below to answer the numbered questions concerning the quality of each presentation:

1	2	3	4	5	6	7
Poor						excellent

1) How adequate and relevant were the topic selected and analysis conducted?
2) How well organized was the presentation?
3) How sufficient was the depth of discussion on theory, hypothesis, method, and results?
4) How interesting was the presentation?
5) How would you rate the presentation overall?

II. Report the record of all individual ratings. Sum up the individual ratings and than get a overall percentage score for each presentation, **except** your own presentation. *Note that ratings that do not differentiate will not be used*. For each presentation, the average score after removing the highest and the lowest individual scores will be used as the final score.

III. Send the total scores as well as the percentage scores as an *Excel attachment* with the names ***sorted by the last names*** of the presenters to xtwang@usd.edu within *two days* after the last presentation.
